What are the struggles that keep you from acting on it?

- Uncertain?
- Overwhelmed?
- Fearful?

FROM RECENT CLIENTS...

Thank you so much for the wonderful hours spent delving into my personal spirituality. What thought provoking days. The timeline portion was enlightening. I didn't realize my first ten years were so negative and the last much more positive. I also enjoyed the personality profile. I'm so happy. – *Tonda*

The life plan has been a benefit to my life. After doing the timeline, I discovered some things I had forgotten that had affected me. It helped me see where God started my life and where He has placed me now during this time. Through the struggles and happy times, I could see how I had walked through them. It helped me realize that my faith in God took care of me each day. It was helpful finding my spiritual gifts and discovering some that I didn't know I had. I understand better how to use them for serving others. I also found it useful to see how I prioritize my values. – *Utannah*
